FOREST RESEARCH CENTRE FOR ECO-REHABILITATION PRAYAGRAJ

CONSULTATIVE MEETING AT FOREST RESEARCH INSTITUTE, KANPUR

A consultative meeting was called by Director, Forest Research Institute, Kanpur on 25th November, 2019 for efficient networking between FRI Kanpur and FRCER, Prayagraj for collaborative research and extension activities.

Dr. Sanjay Singh, Head, FRCER and Dr. Kumud Dubey, OIC Extension participated in the meeting chaired by Dr. K. Thomas, the Director, Forest Research Institute, Kanpur and attended by Mr. N. Rabindra, Silviculturist (Kanpur), Mr. Verma, Silviculturist (Bareilly), Dr. Sanjay Singh, Head, FRCER, Prayagraj, Prof. Madhulika Singh, Department of Biotechnology, Chhatrapati Sahuji Maharaj University, Kanpur, Dr. Kumud Dubey, Scientist, FRCER, Prayagraj, Dr. Parul, Incharge, Plant Tissue Culture Lab and other officials from FRI, Kanpur.

The Director, FRI, Kanpur explained regarding the ongoing research activities and available facilities at FRI, Kanpur. Matter of establishment of Van Vigyan Kendra and various other issues regarding collaborative research works were also discussed in meeting.

Plant Tissue Culture Laboratory of the Institute was also visited by FRCER scientists to suggest some precautionary measures and establishment of separate clonal multiplication areas for desired species to reduce contamination from the explants and cultures.

The meeting ended with the note that FRI Kanpur and FRC-ER Prayagraj shall formulate collaborative research projects in the

area of ecological rehabilitation of stress sites incorporating bioremediation approaches to be funded by SFD UP.
