

Van Mahotsava celebration at TFRI

Tropical Forest Research Institute celebrated the Van Mahotsava and planted trees on 23/07/2019 and 25/7/2019. This year officers and staff of TFRI visited KV premises for plantation and planted trees and medicinal plants of various species, students and teachers of KV actively participated in the planting programme. As a part of activities under "PRAKRITI" students were briefed about the uses of medicinal plants and also informed about the maintenance and management of the medicinal plant garden and trees.

Tree planting was also carried out in the experimental field of TFRI and in the Institute's campus.
